## March of Dimes Expands Aid for Victims Of Crippling Birth Defects, Arthritis, Polio

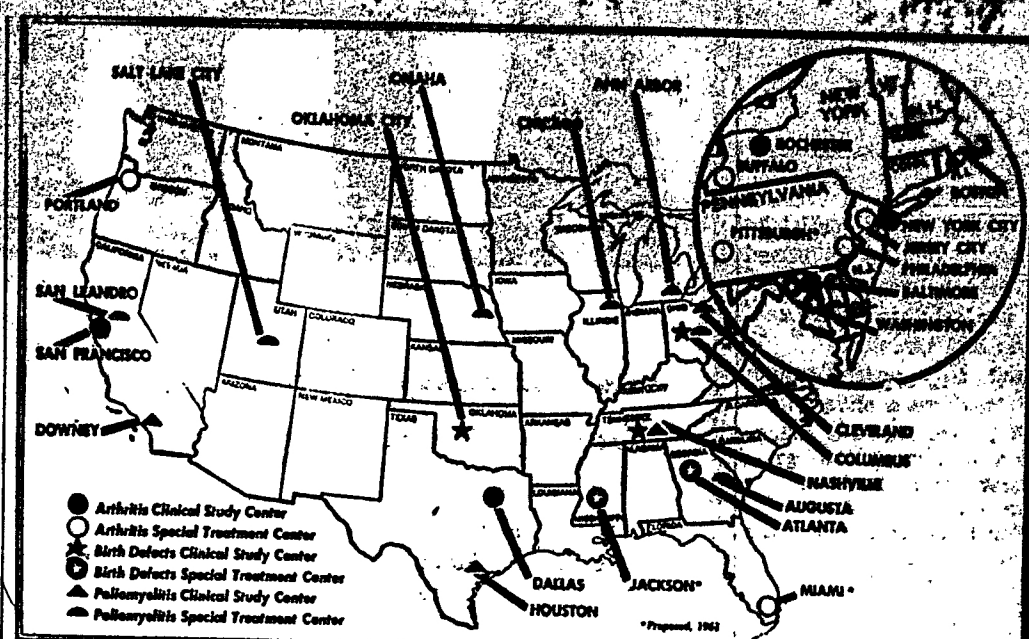

Victims of crippling birth defects and rheumatoid arthritis, among the largest groups of the medically underprivileged in the nation, can soon look for help virtually at their doorsteps, thanks to the March of Dimes.

The National Foundation, supported by March of Dimes funds, has broadened its horizons to give direct aid to children under the age of 19 suffering from all types of birth defects. Aid was previously limited to children with open spine, open skull and water on the brain.

The voluntary health organization has also authorized its 3,100 chapters throughout the United States to use available funds to establish a network of Special Treatment Centers and Evaluation Clinics for birth defects and arthritis. Assistance to polio victims will be continued.

The National Foundation's experience with polio treatment and rehabilitation centers as well as pilot projects conducted in birth defects and arthritis has proved the value of bringing together teams of experts to deal with medical, economic and social problems of chronically disabled patients and their families.

Under the newly expanded program, National Foundation chapters will finance Special

March of Dimes-supported Special Treatment and Clinical Study Centers offering comprehensive care to victims of birth defects, arthritis and polio are expanding throughout U. S.

Treatment Centers at major hospitals in several large cities. These will operate full time and provide treatment for both in- and outpatients through teams of specialists, the medical and allied professions. For areas isolated from large medical centers, chapters will develop birth defects and arthritis Evaluation Clinics to offer outpatient care only, through periodic clinics with visiting medical specialists.

Cases that require more extensive care or hospitalization may be referred through Evaluation Clinics to Special Treatment Centers. On the national level, March of Dimes funds will continue to support and expand Clinical Study Centers which provide exemplary total care for birth defects, arthritis and polio victims and also conduct research in those diseases. As the number of centers of

all three types increases, there will be an increase in knowledge and improvement of treatment facilities and techniques to bring closer to reality the control of chronic crippling diseases.

In conducting its vastly expanded patient aid program, The National Foundation will emphasize aid in areas of unmet needs. It will not duplicate assistance already being provided by other agencies.

## Three Pasture Grasses Studied In Dairy Tests

STATE COLLEGE, Miss. - Dairy men, who know that pastures produce milk cheaper than other feeds, often find it hard to decide which type of summer pasture is most profitable.

The Mississippi Agricultural Experiment Station has recently completed a study comparing Coastal Bermuda and Dallas grass, two permanent pasture grasses, with Sudan grass which because it must be seeded every year is classed as a temporary pasture.

In his report on the three-year test, Dr. C. B. Browning, of the Dairy Department of Mississippi State University, found advantage for both types of pastures. One produced more feed per acre and the other more milk per cow. In summary, Dr. Browning said:

"Milk production per cow was higher and persistency of production greater for cows while grazing Sudan grass than while on either Coastal Bermuda or Dallas grass. Dallas grass was higher in quality than Coastal

Bermuda. "Coastal Bermuda pasture provided more cow-days and produced more nutrients per acre at a lower feed cost per 100 pounds of milk than did either of the other two grasses. These differences were greater during dry years, indicating a greater drought resistance for Coastal Bermuda. "In a situation where daily pro-

duction per cow is more important than total yield per acre greater emphasis must be put on the higher quality temporary pasture crop." The complete report of the experiment is reported in the June issue of Mississippi Farm Research, available on request from the Experiment Station at State College.

## COUNTY AGENTS' NOTES

G. W. JENNINGS  
County Agent

### LAWN CARE

Proper mowing is essential to good lawn care. It must be mowed properly to look neat. And, it must be properly mowed to control weeds and diseases.

The first step toward proper mowing is to have a sharp mower. A dull mower leaves a ragged appearance, is injurious to grass and is hard on the mower.

Cut the grass at the right height. For finer textured grasses never cut more than one half inch at any time; for coarser grasses, never take more than an inch off at a time.

### PROPER USE OF INSECTICIDE

The Food and Drug Administration has the responsibility to make sure that certain toxic substances are not exceeded in chemical residues on our food and food crops.

Here is how you can help with the problem: Select and use only the recommended chemicals. Follow closely the directions on the label. Observe clearly the restrictions when using any chemical.

### FERTILIZE THE FISH PONDS

Your farm fish pond will produce four to six times as many pounds of fish if you fertilize it. A one-acre pond, properly fertilized will grow 300 to 400 pounds of fish a year.

Fertilize the pond from March through October. Use an 8-2-2 or similar mixed fertilizer. You may need to fertilize the pond six to 12 times a year.

Broadcast the fertilizer into the water from the shore or pour it slowly from a moving boat.

Here are some "don'ts" on fish pond fertilization: Don't fertilize a pond that stays muddy. Don't fertilize during the winter. Don't fail to fish the pond plenty.

### INSECT NOTES

Chinch bugs have been reported attacking young corn. Diabrotids at one-fourth pound per acre or tenpence at two pounds are recommended. Heavy populations of white flies have been observed in velvet and peas. These could move into young cotton and be on hand to blast those young squares when they show up.

Thrips and cutworms are also present. Your county agent has information on killing these and other insect pests. See him or call him. The telephone number is Homestead 7-4631.

### DARKENY TAKE NOTICE

The annual Hancock County Dairy Field Day will be held at Karl Goss Farm in Caesar Community on June 8, 1961. The Program will begin around 9:30 a.m. under the supervision of the Dairy Extension Department and Pathology Department of Mississippi State University. Each dairyman of Hancock County is especially invited to attend. The Program will consist of: Breeding, Management, Feeding and Control of External and Internal Parasites.

Refreshments will be served.

Weekends in the 12 states from Virginia to eastern Texas and to southern Oklahoma produce more than 90% of the world's cotton.

Southern pulp and paper mills have provided a major forestry training camp in nine states of the region. More than 1,000 farm youngsters have attended these camps every summer for the past decade.

### THE CHURCH FOR ALL... ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

Day	Book	Chapter	Verses
Sunday	I Corinthians	13	9-13
Monday	James	5	22-27
Tuesday	Matthew	10	12-23
Wednesday	Colossians	3	1-4
Thursday	Psalms	118	10-20
Friday	Luke	1	74-80
Saturday	Philippians	2	13-18

She's frightened. She's seeing the world for the first time through dark glasses.

It's no wonder you and I are frightened. Ever since we were old enough to reason, we have been seeing the world through dark glasses. It's just as Paul said:

"Now we see through a glass, darkly; but then face to face."

We spend our years wondering why things happen as they do... why hatred flourishes and love withers... why sorrow seems inevitable and joy so rare. Apparently, we were not meant to understand... not here!

Some truths God has revealed to us; these our Churches teach. Other truths God will not reveal until another day; to prepare us for that day our Churches strive.

Until at length we gain that complete vision, we are happiest and strongest when we live faithfully in the truth already revealed. Even with dark glasses a man can see as long as he walks toward the Light.

June is "Hospitality Month" in Mississippi  
—State Welcomes Visitors  
One of Mississippi's biggest tour-  
ist attractions is never seen in  
the travel folders. But it's talked  
about by many a vacationer who  
has been to the state, and it's  
even given the state its nick-  
name — "The Hospitality State."  
This famous hospitality is a year-  
round tradition, but special em-  
phasis comes in June which is  
"Hospitality Month" in Mississippi.  
Billboards on every major high-  
way throughout the state proclaim  
"June is Hospitality Month - wel-  
come to Mississippi."  
Even the smallest communities  
set up refreshment booths along

side the road, where the motor-  
ist is treated to free soft drinks.  
All he has to do to "place his or-  
der" is apply his foot gently to the  
brake and bring his vehicle to a  
stop at the booth.  
Local residents (often with the  
young ladies dressed in hoop-  
skirt style of the "Old South") will  
hand out favors and souvenirs,  
give travel directions, answer  
questions and often invite an out-  
of-state couple or family to be  
guests of the town overnight.  
These overnight guests get the  
"visiting royalty" treatment, in-  
cluding perhaps a banquet in their  
honor, an appropriate gift for the  
lady of the house, a free wash  
or grease job for the car, a guid-  
ed tour of the area, free over-  
night accommodations and other  
courtesies.

Proof that this treatment leaves  
a lasting impression comes at  
travel shows in Chicago, Milwau-  
kee, Kansas City and other cities  
when those so honored stop at  
Mississippi's booth and enthusias-  
tically relate their "Hospitality  
Month" experiences.  
Even for those not lucky  
enough to get the "red carpet"  
welcome, Mississippi towns put  
their best foot forward. Many of  
them conduct "Clean-Up, Fix-Up,  
Paint-Up" campaigns in conjunc-  
tion with "Hospitality Month"  
each June.

And even though the intangible  
virtue of hospitality cannot be  
photographed, it can be symbol-  
ized. The symbol of hospitality in  
Mississippi is the state's official  
"Miss Hospitality," elected each  
year in statewide competition,  
usually with some 50 contestants  
entered.

The contest is scheduled this  
year for July 26-29 at Biloxi. As  
is customary, three out-of-state  
judges will select the young lady  
who will represent Mississippi at  
travel shows throughout the  
country during 1961-62.

The competition is sponsored by  
the travel department of the Mis-  
sissippi Agricultural and Industrial  
Board. Traditionally, the governor  
crowns the winner in a corona-  
tion ceremony broadcast by special  
statewide radio hook-up.  
"Miss Hospitality" this year is  
Miss June Wood, of Hattiesburg.  
She is the twelfth to hold the  
title. Other winners came from  
Pascagoula, Tupelo, Yazoo City  
(twice), Meridian, Moss Points,  
Laurel, Leland, West Point, Prentiss  
and Meadville.  
Letters signed by Gov. Ross  
Barnett have gone out to all Mis-  
sissippi mayors notifying them  
that they have until midnight of  
June 28 to send official notice of  
their respective contestants to  
Ned O'Brien, manager of the A.  
& I Board travel department, P.  
O. Box 848, Jackson.

The pulp and paper mills in the  
South employ a total of 83,000  
people. Another 82,000 people  
are engaged in the independent  
business of supplying pulpwood  
to these mills. During 1959 the  
pulp and paper industry in the  
South established at its own ex-  
pense 92 Pilot Forests on private-  
ly owned farms. Today these Pil-  
ot Forests are serving as living  
laboratories to owners of similar  
tracts of land.

**Mental Health Program**  
**In Full Swing During**  
**The Month June**

Mississippi's number one health  
problem has received special em-  
phasis during "Mental Health  
Month" with many areas observ-  
ing Mental Health Week. Featuring  
Mental Health Caravans, William  
Winter, State Campaign Chairman  
stated.

Local campaigns for mental  
health are in full swing over the  
State as the campaign goal of  
\$81,000.00 is being worked toward.  
United Givers Funds which in-  
clude mental health are: Aber-  
deen, Biloxi, Columbus, Gulfport,  
Hattiesburg, Hattiesburg, Jackson,  
Kosciusko, Laurel, Lumberton,  
McComb, Meridian, Natchez, Pasa-  
coula, West Point and Yazoo City.  
Where there is no mental health  
program affiliated with United  
Fund or UGF, Bell-Ringer door-  
to-door campaigns or letters re-  
questing support of mental health  
are methods being used to inter-  
est Mississippi citizens in this  
cause.

In pointing to the great need  
for funds to carry forward the  
program of mental health in this  
State during the next twelve  
months, Mr. Winter stated, you  
can help to conquer mental illness  
by supporting your local mental  
health drive or UGF campaign.  
Needs include: early and proper  
treatment for all the mental ill;  
research to speed up treatment  
and prevention, out patient clin-

ics to help bring mental  
illnesses under control.  
Mental illness is a  
problem which can be  
conquered. It is a  
disease which can be  
treated and will come back. It is  
a disease which can be  
treated and will come back. It is  
a disease which can be  
treated and will come back.

**Water Resources**  
**Vital To Progress**

Prominent among Mississippi's  
economic assets are the water re-  
sources which can help give an  
important advantage in future in-  
dustrial growth. No state in the  
thirty-one states of the eastern  
half of the nation has a stronger  
position in this regard. Missis-  
sippi's situation is especially fa-  
vorable with regard to ground  
water, which most manufacturing  
industries prefer to surface wa-  
ter. Mississippi's superior water  
resources will become a vital as-  
set.

**Farm Related Jobs**  
**For The Graduates**

Mississippi youths now graduat-  
ing from schools in non-urban  
areas and wanting careers in  
fields closely related to farming  
have various opportunities. Re-  
search probes all phases of agri-  
culture, offering jobs which range  
from laboratory to experiment  
farm or researching numerous  
demands for farm products. Agri-  
cultural business is closely relat-  
ed to industry, and conservation  
has numerous job opportunities.
